WA1 ALLY and ROGUE NATION ACTION CHART: GROUP A

EU, NATO, ROK, IRAN

When it is this Ally Group's turn to act:

1 Perform **European Union** procedure to update economic trends/changes:

1. **World Economic Trend:**
   Roll a d10:
   1-4: **Growing Economies**. Place "Economy Improving" counter on all 4 SoE Tracks.
   5-7: **Slow Growth**. No change to SoE Tracks.
   8+: **Slumping Economies**: Place "Worsening Economy" counter on all 4 SoE Tracks.

2. **Roll d10 for Eurozone:**
   (-1/-2 DRM if Eurozone Stability is 6/7+. +2 DRM if Eurozone Stability is <5.)

- **3 or less: Eurozone Thrives.** Place "Economy Improving"counter on Eurozone SoE Track. (If SoE is already 7, +1 to Regional Stability instead.) -1 Regional Crises.
- **4-5: Economic Summit Strengthens Eurozone.** Place "Economy Improving" counter on Eurozone SoE Track. If SoE already at 7, then increase Eurozone Stability by one box instead.
- **6-7: Low Interest Loans.** -1 to Eurozone Regional Crises.
- **8-9: EU Discord.** +1 to Eurozone Regional Crises.
- **10: Debt Burdens.** Place "Worsening Economy" counter on the Eurozone SoE Track; +1 Regional Crises.

These allies act only in their region, except for NATO, who can affect the Eurozone or Eastern Europe.

2 **Activate NATO:**

a. **Flip over all Tensions counters** on NATO and total up their values. If the total is:

5-8: Degrade NATO Relationship by one level.
9+: Degrade NATO Relationship by two levels.

b. **Perform a number of Joint Actions** with NATO. The number of actions is determined by NATO Relationship:

Very Close: Two Joint Actions.
Close: One Joint Action.
Estranged: Zero Joint Action.

The number of Joint Actions is then adjusted by any -1 AP or +1 AP markers on NATO. The possible Joint Actions you can choose are listed below, under "Possible Joint Actions."

NOTE: If the Ally has a "Must choose Intel" counter on them when it's time to select their Joint Action, then this is what they will do as their first action. Then remove the "Must Choose Intel" counter if at least one action was performed.

c. When finished with Joint Actions, **make a d10 Unilateral Action die roll**, referring to the NATO Unilateral Action Table, applying applicable DRMs (including the sum of remaining Tensions counters as a possible DRM).

d. **Apply results of the Unilateral Action Roll.**

e. **Then remove all of NATO's Tensions counters and replace** with half the number of counters (rounded down) that you removed (these counters will be face-down). Also remove -1 AP/+1 AP markers.

---

3 **Activate ROK**, using the same procedure described in 2, above, except for the ROK.

---

4 After NATO and ROK activations, **Activate Iran.** Flip all Tensions and Sanctions counters on Iran. If it has a -1 AP marker, remove it and go directly to step b. Otherwise:

a. Check if Iran is at War:

- **If Iran is at War**, roll a d10 on the "Iran at War Action Table".
- **If Iran is not at War**, roll a d10 on the "Iran at Peace Action Table".

b. Remove all Tensions counters on Iran and replace with one half the number (rounded up) that you removed, placed number-side down.

c. Remove all Sanctions Counters on Iran and replace with an identical number and type of Sanctions counters, placed number-side down.

---

5 Then **Check Unstable States** to finish this segment.

POSSIBLE JOINT ACTIONS:

1. **Intel (1 Max.).** Target any Terror Group (two different groups if NATO) in the region. Place that Group on the "Gathering" box in the region, or if it was already on the Intel Track, move it to the next box on the Intel Track.
2. **Raid.** Make one SOF Raid attempt against one Terror Group in the region's "Target Fixed" Intel box (WM2).
3. **Attempt to Stabilize Region (1 Max and cannot be performed as the first Joint Action)**: Roll a d10:
   -1 DRM if Regional Crises is 0. On a 1-4, increase Stability by one box.
4. **Reinforce**. If the Ally is involved in a War, try to add 1 strength to their side. Roll a d10 and subtract SecDef's Defense Rating:
   1-7: +1 Strength to that Ally in a War
   8+: No effect

5. **De-Escalate.** If the Ally is not Estranged and has a Conflict Track, attempt to decrease the Status track (away from War) by one level. Roll a d10 and add 2 if Ally Relations are "Close":
1-7: **Success**; decrease Status one level, -1 Tensions counter to each nation on that Conflict Track (you choose the Tensions counter in the Ally's case).
8+: **Failure** (no effect).

6. **Request UN Humanitarian Aid in ANY region (1 Max)**. Make a UN Aid roll for any one region on the map. Roll a d10:

1-8 result decreases Regional Crisis in the chosen Region by one box.

9+ result has no effect.

7. **Remove Stress.** Remove up to 2 Tensions counters (you choose which) from this ally.

ROGUE STATE ACTIONS

Perform the process below for EACH Rogue State counter on the map.

If Lvl 1 or 2 Rogue State is at War, do only A. If Lvl 3 or 4 Rogue State is at War, do A and B. If Rogue State (any level) is not at War, do only B.

A. Roll a d10, adding 1 to the roll if the Rogue State has a "-1 AP" counter:

1-2: +2 Strength;
3-8: +1 Strength;
9+: No Strength Increase.

Also, if the Current War Type is Combined Air/Ground and the Rogue State is not winning, roll a d10. On a "1-5," change Conflict Type to Guerilla War.

B. Terror Impact. Place a Trending Anti-US counter on the Rogue State's Region Alignment Track; then roll a d10 and apply as shown on the chart below.

DR (d10)	RESULT
2 or less	**Terror Training.** Increase one Lvl 3,2,or 1 (in that priority) Terror Group in the region by one level.
3-4	**Fan the Flames:** +1 to Regional Crises.
5-6	**Export Terror:** Place a Lvl 1 Terror Group in both the US and the Eurozone.
7	**Recruiting:** Increase Rogue State by one level.
8-9	**Try to Acquire WMDs** (If a Lvl 1 or 2 Rogue State, OR WMDs have already been acquired, use the "7" result – Recruiting – instead). Roll a d10: (-1 DRM if the Rogue State has a WMD Not Acquired marker). 1-2: Success. Place a "WMD Acquired" marker (and remove any existing "WMD Not Acquired -1" markers) on the Rogue State. 3+: Fail. Place a "WMD Not Acquired -1" marker on the Rogue State.
10	Same as 8-9 unless WMDs already acquired. If acquired, Use Weapons on US/Israel. **Game Over, Player Auto-Loss.**

DRM
-2 If the Rogue State has a "-1 AP" counter

FINAL ACTION: CHECK UNSTABLE STATES

Roll d10 once for each Unstable State counter in the **Middle East and Africa.**

Roll d10:

3 or less: Remove Unstable State and any Iranian Influence next to it.

4-8: Keep Unstable State on map.

9-10: Flip Unstable State to Civil War side unless the Region contains its maximum number of Civil Wars. Transfer any Iranian Influence next to the Unstable State to the new Civil War.

11+: Remove Unstable State and any Iranian Influence next to it. Place Lvl 1 Rogue State.

DRMs: +1 If Regional Stability is <5

-1/-2/-3 If Regional Stability is 6/7/8, respectively

+1 If there is an Iranian Influence next to the Unstable State

WA4 ALLY and ROGUE NATION ACTION CHART: GROUP D

CANADA, GULF STATES/SA, ROGUE

These allies act only in their region, except for Canada, who can affect the Eurozone, Central or S. America (not CONUS). When it is this Ally Group's turn to act:

1 **Activate Canada:**

a. **Flip over all Tensions counters** on Canada and total up their values. If the total is:

5-8: Degrade Canada Relationship by one level.
9+: Degrade Canada Relationship by two levels.

b. **Perform a number of Joint Actions** with Canada. The number of actions is determined by Canada Relationship:

Very Close: Two Joint Actions.
Close: One Joint Action.
Estranged: Zero Joint Action.

The number of Joint Actions is then adjusted by any -1 AP or +1 AP markers on Canada. The possible Joint Actions you can choose are listed below, under "Possible Joint Actions."

NOTE: If the Ally has a "Must choose Intel" counter on them when it's time to select their Joint Action, then this is what they will do as their first action. Then remove the "Must Choose Intel" counter if at least one action was performed.

c. When finished with Joint Actions, **make a d10 Unilateral Action die roll**, referring to the Canada Unilateral Action Table, applying applicable DRMs (including the sum of remaining Tensions counters as a possible DRM).

d. **Apply results of the Unilateral Action Roll.**

e. **Then remove all of Canada's Tensions counters and replace** with half the number of counters (rounded down) that you removed (these counters will be face-down). Also remove -1 AP/+1 AP markers.

---

2 **Activate Gulf States/SA**, using the same procedure described in 1, above, except for Gulf States/SA.

---

3 After the Canada and GS/SA activations, **Go to the Rogue Activation Table** at right to determine whether ONE game-created Rogue State or Iran or North Korea acts immediately. NOTE: If there are no game-created Rogue State counters on the map, always use the 6+ result on the Rogue Activation Table.

---

4 Then **Check Unstable States** to finish this segment

POSSIBLE JOINT ACTIONS:

1. **Intel (1 Max.).** Target any Terror Group (two groups if Canada) in the region. Place that Group on the "Gathering" box in the region, or if it was already on the Intel Track, move it to the next box on the Intel Track.
2. **Raid.** Make one SOF Raid attempt against one Terror Group in the region's "Target Fixed" Intel box.
3. **Attempt to Stabilize Region (1 Max and cannot be performed as the first Joint Action)**: Roll a d10: -1 DRM if Regional Crises is 0. On a 1-4, increase Stability by one box.
4. **Reinforce**. If the Ally is involved in a War, try to add 1 Strength to their side. Roll a d10 and subtract SecDef's Defense Rating:
   1-7: Success.
   8+: Failure
5. **De-Escalate.** If the Ally is not Estranged and has a Conflict Track, attempt to decrease the Status track (away from War) by one level. Roll a d10 and add 2 if Ally Relations are "Close":

   1-7: **Success**. Decrease Status one level, -1 Tensions counter to each nation on that Conflict Track (you choose the Tensions counter in the Ally's case).

   8+: **Failure**.
6. **Request UN Humanitarian Aid in ANY region (1 Max)**. Make a UN Aid roll for any one region on the map. Roll a d10:

   1-8 result decreases Regional Crisis in the chosen Region by one box.

   9+ result has no effect.
7. **Remove Stress.** Remove up to 2 Tensions counters (you choose which) from this ally.

ROGUE ACTIVATION

Roll a d10:
(If no Rogue States are on the map, implement the 6+ result below instead of rolling a d10).

1-5: The highest level game-created Rogue State Acts. (Choose randomly if more than one is at the same level.) Use the Rogue State Actions process for that specific Rogue State on the Allies and Rogues Group C Table (WA3).

6+: North Korea or Iran, whichever has more Tensions counters (if tied, choose randomly), acts. Remember to take into account whether they're involved in a war, as detailed under WA1/WA2.

CANADA UNILATERAL ACTION TABLE

DR (d10)	RESULT
1 or less	**Summit.** Remove 1 Russia Tensions counter.
2-3	**Aid.** Decrease Regional Crises one box in Eurozone, Central, or S. America or Domestic Crisis by one in CONUS.
4-5	**Trade.** Economic impact in Eurozone (d10 **1-6**) or CONUS. (d10 **7+**) Place "Economy Improving" counter on affected SoE track. If selected SoE is already at 7, place on other SoE. If both SoEs are already at 7, ignore this result and roll again.
6	**Oil to Europe.** Remove one Russia Influence counter from Eurozone. If none, add "Economy Improving" counter to the Eurozone SoE.
7-8	**Join US Sanctions.** Replace any 1 Unilateral with Multilateral counter. If none, roll again.
9-10	**Joint Anti-Terror Campaign w/US.** Reduce one Lvl 1,2, or 3 Terror Group (in that priority) in CONUS, Central America, or South America by one level.
11+	**Support US in War.** +2 Strength to the US, an Ally or a US-supported country in a war. If no such War, then: **Send Troops Abroad.** Either Send Forces to Reinforce NATO: +1 NATO/Russia Rel. Strength on Conflict Track and +1 Russia Tension.

DRMs (+4 Max)

-1 If No Tensions counters on Canada

+1 Per Tensions value on Canada

+1 If Russian Influence in Eurozone

+1 Per Lvl 3/4 Terror Group in CONUS.

+1 If Russia/NATO Conflict Status Value >1 on Conflict Track

GULF STATES/SAUDI ARABIA (GS/SA) UNILATERAL ACTION TABLE

DR (d10)	RESULT
1 or less	**Dialogue.** Decrease GS/SA/Iran Conflict Track back one box. Remove one Tensions counter on both GS/SA and Iran.
2-3	**Talks w/Iran.** Remove 1 Tensions counter from Iran and GS/SA.
4	**Stabilize.** -1 Reg. Crises in Middle East.
5-6	**Increase Oil Production.** Add "Economy Improving" counter to US, Eurozone, and China. Add "Worsening Economy" counter to Russia.
7-8	**Allow Increased US Military Basing.** Add 1 Tensions counter to GS/SA and Iran. Either add a "Trending Pro-US" counter in the Middle East or Remove one China Influence from the Middle East.
9-11*	**Build Air and Naval Forces.** Increase Relative Strength vs Iran by one in GS/SA's favor on Conflict Track. Increase GS/SA/Iran Conflict Track status by one box. If this causes War, it's Air/Missile War. GS/SA is the Attacker.
12+*	**Renewed Offensives in Yemen.** +2 Tensions on GS/SA and Iran. Increase GS/SA/Iran Conflict Track by one box. Setup a Combined Air/Ground War against Yemen (WM5) with GS/SA as attacker. If Ally Relationship is Very Close, ask for US help. US may choose to move 1 Carrier Group in either the Mediterranean or the Indian Ocean CVBG Deployment Zone. Then, if a Carrier is present in one of these zones, you may choose to help. If you do, lose one UN Goodwill, place one Military Footprint counter in the Middle East, and add 2 Strength to GS/SA in a single War. If you don't, decrease Ally Relationship with GS/SA by one level.

DRMs (+4 Max)

-1 If No Tensions counters on GS/SA

+1 Per Tensions value on GS/SA

+ 1/2 (rounded down) Current Status Value on GS/SA/Iran Conflict Track

+2 If GS/SA is at War

* = If GS/SA is at War, apply +1 to their Strength in that War instead of the listed result

FINAL ACTION: CHECK UNSTABLE STATES

Roll d10 once for each Unstable State counter in the **Central/South Asia** and **Asia/Pacific**.

Roll a d10:

1-3: Remove Unstable State.

4-8: Keep Unstable State on map.

9-10: Flip Unstable State to Civil War side unless the Region contains its maximum number of Civil Wars.

11+: Remove Unstable State. Place Lvl 1 Rogue State.

DRMs:

+1 If Regional Stability is <5

-1/-2/-3 If Regional Stability is 6/7/8, respectively
