This book contains all the charts and tables you will need to deal with domestic events and actions as they come up as you play *Mr. President*.

D1 POTUS/CABINET FOCUS

Refer to the POTUS/CABINET FOCUS section on the game map. Beginning with POTUS/Cabinet Focus/Priority #6 and continuing to #5 and so on until you complete #1, roll a d6 for each Focus/Priority.
Exception: **DO NOT ROLL** for any Focus/Priority that has a Tensions counter next to it. (These priorities have been shuffled aside for now by the press of other crises and events.)

If the result of each roll falls within the Success range on the Priority counter, apply the results in the "Success Effect" area to the right. Otherwise, there is no effect.

POTUS/CABINET FOCUS	SUCCESS EFFECT
Improve Relations with Congress	Improve RWC by one box
Improve Economy	Place "Economy Improving" counter on US SoE Track
Improve Homeland Security	Decrease one Terror Group in US by one level. If none, +1 to Homeland Security and -2 Public Approval (*people dislike the increased restrictions and surveillance*).
Improve Public/Press Relations	Either a) +3 to Public Approval, or b) +1 to Public Approval and +1 to Media Relations
Address Domestic Crisis	-1 to Domestic Crisis. If already 0, +2 APs
Improve Cabinet Effectiveness	Roll a d6: **1-3:** Place an "Improving" counter on the Cabinet Effectiveness Track; **4+:** +3 APs

TENSIONS COUNTERS: Anytime the game instructs you to place Tensions counters on the POTUS/Cabinet Focus, place them in the Tensions boxes to the right of each Focus area on the game board, beginning with the lowest importance Priority (6 to 1) that does not currently have a Tensions counter next to it. **If all six Tensions boxes to the right of the Focus areas are full when you are instructed to place a new Tensions counter, -1 AP and roll on Cabinet Drama Table (D2) instead.**

Domestic Master Action #8 allows you to remove Tensions counters in highest importance Priority order (1 to 6). Also, during the "1 Action for POTUS & Each Cabinet Member" Segment of the Turn Sequence, a Tensions marker may be removed instead of taking an Action with POTUS or with a Key Cabinet Member (also in 1 to 6 priority).

SCANDAL TENSIONS: Any time you a) place a new Scandal counter on the Scandal Track, or b) move a Scandal counter one box to the right on the Scandal Track, place one Tensions counter on the POTUS/Cabinet Focus (6 to 1 priority). If POTUS is the scandal target, two Tensions markers are placed instead of one.

At the end of the segment, remove one Tensions (1-6 priority) from the POTUS/Cabinet Focus area.

D2 CABINET IMPROVEMENT TABLE

Roll (d6)	RESULT
0 or less	**Improving**. Place "Improving" counter on Cabinet Effectiveness Track. One Advisor becomes experienced. Roll a d6: **1-2:** SecState **3-4:** SecDef **5:** Chief of Staff **6:** Vice-President Flip to Experienced Side if not already on its Experienced Side (do not reroll if Advisor is already Experienced).
1-2	**Improving.** Place "Improving" Counter on Cabinet Effectiveness Track.
3-4	**No Change**
5	**Losing Cohesion**. Add one Tensions counter (6 to 1) to POTUS/Cab Focus. Place "Worsening" Counter on Cabinet Effectiveness Track. -1 Public Approval.
6+	**Disarray**. Move left one box on Cabinet Effectiveness Track and roll a d6 on the Cabinet Drama Table. -2 Public Approval.

DRMs (+/- 3 Max):

-#: The Domestic Value of your Chief of Staff

-1: If you have the Team Builder POTUS Attribute

-1: If you spent 1 AP

+#: Half (rounded down) the number of Tensions counters in the POTUS/Cabinet Focus area

D3 CABINET DRAMA TABLE

MAKE A CABINET DRAMA TABLE ROLL

(d6 – no DRMs)

a) Whenever you roll a 6+ on the Cabinet Improvement Table.

b) Any time you add a new Tensions counter in the POTUS/Cabinet Focus area that causes your Tensions counter total in that area to exceed 6 (roll for each such counter you cannot add).

c) When directed to by a Crisis Card or a Chart/Table result.

Roll (d6)	RESULT
1	**Cabinet infighting goes public.** -1 Public Approval.
2	**Unflattering Cabinet Leaks about the President.** -1 Media Relations; -1 Public Approval; -1 Party Relations.
3	**Cabinet Leaks Lists Congressional Enemies.** -1 RWC; -2 APs; -1 Public Approval; Move Bipartisan Cooperation 1 box left.
4	**Influence Scandal at Treasury causes market "flash crash."** Place a "Worsening Economy" counter on US SoE Track; -2 Public Approval.
5	**Resignations.** Roll a d6: **1-2:** SecState Resigns **3-4:** SecDef Resigns **5- 6:** Chief of Staff Resigns Draw three new candidate counters and select a replacement. Place the unselected candidates and resigning Cabinet Member back into the cup. Place a "Worsening" counter on Cabinet Effectiveness Track. -2 Public Approval; -1 Party Relations.
6	**Open hostility in Cabinet fosters Domestic Crisis.** +1 to Domestic Crisis Track. Add one Tensions counter to POTUS/Cabinet Focus (6-1). Place "Worsening" counter on Cabinet Effectiveness Track. -2 Public Approval.

D4 CONGRESSIONAL LEGISLATIVE PROCEDURE

1. **Determine Support/Opposition to Pending Bills** ***(If no Pending Bills, skip this step).*** Total the sum of the Legislative Ratings of all your Friends in the Congressional Friends box. Then subtract the total Rating of your Congressional Opponents. Treat results >3 or <-3 as 3 and -3, respectively. If the result is positive (+), you may move that number of bills (either yours or Opponents') one box in either direction on the Pending Bills Track, thus increasing or diminishing their support in Congress. If the result is negative (-), that is the Legislative Rating of your Opponents exceeds that of your Friends, move that number of your (not Opponents') bills one box toward Strong Opposition/Cannot Be Passed.

2. **Attempt to Pass Pending Bills** ***(If no Pending Bills, skip this step).*** The number in the current box in the Bipartisan Cooperation section is the number of bills you must now attempt to Pass.

- If you control both houses of Congress, you choose which of the Pending Bills to try to pass.
- If your Opponents control both houses, make the attempt(s) for Opponents' Legislation that are furthest left in the Pending Bills boxes (i.e. the easiest to pass). Choose randomly if more than one Opponent's Bills are in the same leftmost box.
- If control is split, roll a d6 to see who chooses the first bill to pass (even = you; odd = opponents), then alternate between parties until you've made the indicated number of attempts.

Your Opponents will never attempt to pass your Bills and if they don't have enough Pending Bills of their own, will skip their opportunity to pass a Bill instead. If there are no Opponents' Bills to pass when your Opponent must pick one, they do not select any but it still counts as their attempt. If you have no Bill of your own to pass when you must pick one, you must select one of your Opponents' Bills instead.

To attempt to Pass a bill, roll a d6 and apply the DRM from the Pending box the bill is currently in. On a modified result of 1-3, the bill is passed.

3. **Determine Bill Quality** ***(If no Bills are Passed, skip this step).*** For any bill that is passed, Roll on the Effects of Passed Legislation Table (D5) in the Domestic Charts Booklet. Unless the Bill ends up being vetoed, place in the Passed Legislation Box, adjust Legislative Priorities, and implement any effects of the bill. If it ends up being vetoed, return the bill to the Unused Bills Box.

4. **Add Legislative Friends or Opponents.** If you pass a Landmark bill (only), add a new Congressional Friend (if it was your Bill and your Party Relations allow a new Friend) or Opponent (if it was the Opponent's legislation).

Always use the most moderate side of the counter if you are playing an **EASIER GAME**. Otherwise, use the most radical side.

5. **"How the Sausage is Made."** Roll on the Congressional Maneuvering & Drama Table (D6) in the Domestic Charts Booklet.

6. **Introduce New Bill(s)**. Remove all Bills currently in the "Cannot Be Passed" box and place them in the "Unused Bills" box. You may now voluntarily remove any of YOUR (not Opponents') Bills currently in any box of the Pending Bills section. NOTE: Because you can never have more than 5 Bills in the Pending Bills section, you'll sometimes want to remove a Bill or two that are lower priority to make room for new higher-priority Bills.

The number in the current box in the Bipartisan Cooperation section is the number of bills that are now introduced. If you control both houses of Congress, you choose which bill(s) to

introduce. If your Opponents control both houses, choose Opponents' Legislation for the bills (not yet pending or passed) that are the highest public priorities (choose random Bills if that is not possible). If control is split, roll a d6 to see who gets to choose the first bill to introduce (even= you; odd= opponents), then alternate between parties until you've made the indicated number of attempts.

Place the bill or bills you or the Opponent have introduced in the "0" box of the Pending Bills Track on the board if there is split control in Congress; place the bill or bills in the "-1" box if introduced by a Party controlling both Houses of Congress.

7. **Determine Media Result.** Total the Media Ratings of all Friends, and then subtract the total Media Ratings of all Opponents. Then move Public Approval that number of boxes, to a maximum of 3 (up if the final number is positive, down if it is negative). Increase Media Relations by 1 if you increased PA by 3 and decrease it by 1 if you decreased PA by 3.

8. **Scandal Investigations (Skip if no scandals).** Roll a d6 for each Scandal on the Scandal Tracks, starting at the Concluding Scandal box. Refer to the Scandal Table (D14) in the Domestic Charts Booklet and apply results. Repeat that process until all scandals are resolved.

9. **Adjust Bipartisan Cooperation.** Examine all the Friends/Opponents. If there are more Moderates than Radicals, move Cooperation right by one box. If there are more Radicals than Moderates, move Cooperation left by one box. Otherwise, no change.

10. **Legislative Momentum.** Perform one immediate Action of any type for each of YOUR (not Opponents') Bills that were passed and signed during this Activation Segment.

D5 EFFECTS OF PASSED LEGISLATION

When a bill is passed: roll a d6 and consult the chart below to determine the quality of the bill, the Legacy Points you receive from it (half the listed value rounded down for Opponent's Legislation) and what its game effects will be.

DRMs:

-1 If the Bipartisan Cooperation counter is on the rightmost ("Cooperation") box on the Bipartisan Cooperation Track.

+1 If the Bipartisan Cooperation counter is in the left-most "1" box on the Bipartisan Cooperation Track.

Each time you sign Opponent's Legislation: -1 Party Relations; move Bipartisan Cooperation 1 box right.

If you roll an adjusted "6" or more, the Bill is considered to be so dysfunctional that you veto it as the President. Return the Bill to the Unused Bills box and skip the rest of this procedure.

If you roll an adjusted "1" or less, it becomes a LANDMARK BILL.

Otherwise, the Bill is considered a "Good Bill".

"Good Bills" are moved to the "Passed & Signed Bills This Turn" box.

Landmark Bills are moved to the "Passed Landmark Legislation Holding" box (you will not be able to introduce them again this game).

Level 1 Greater Society Initiatives, whether Good or Landmark, are flipped to their Level 2 and moved to the "Passed & Signed Bills This Turn".

Level 2 Greater Society Initiatives, whether Good or Landmark, are moved to the "Passed Landmark Legislation Holding" box (you will not be able to introduce them again this game).

If you pass a Landmark bill (only), add a new congressional Friend (if it was your Bill and your Party Relations allow a new Friend) or Opponent (if it was the opponent's legislation). In picking a Friend or Opponent:

Always use the most moderate side of the counter if you are playing the game at EASIER difficulty.

Always use the most radical side if you are NOT playing the game at EASIER difficulty.

All counters will stay on the indicated side permanently.

D6 CONGRESSIONAL MANEUVERING & DRAMA TABLE

During Step 5 of each Legislative Segment, roll one d6, apply DRMs (max +3/-3), and immediately apply the result. Then, if the current Bipartisan Cooperation is in the leftmost box, make a 2nd roll thereafter (identical except for an additional +2 DRM). When adding a Congressional Friend or Opponent, use the Congressional Friends and Opponent rule in the Governing Manual (page 22 GM).

Roll (d6)	RESULT
0 or less	**Good Relationships Yield Approval and Progress.** **If Public Approval is 60% or higher and/or if Relations with Congress is 7 or higher:** Move a bill of your choice by one box in the direction of your choice. Draw one Friend. **Otherwise:** +1 RWC and either (choose 1) a) +1 Media Relations, b) +2 Public Approval, or c) Move a Scandal counter one box to the left on the Scandal Tracks.
1	**Opponents Waver.** **If RWC is 7+:** +2 APs. Remove one opponent (randomly) from the Opponents box and place back in the cup. If there are no Opponents in the box, draw one new Friend, instead. **If RWC is 5-6:** Move any one bill in the Pending Bills section by one box in the direction of your choice. **If RWC is 4 or less:** Either a) Improve RWC by one box or b) +1 AP.
2	**New Friends, Better Relations, Turncoats, and Scoundrels.** **If RWC is 7+**, Either a) Move one of your bills of your choice one box left in the Pending Bills area, or b) draw a new Friend in Congress. If neither is possible, +1 AP. **If RWC is 6**, Either a) move the Bipartisan Co-op marker one box right or b) Improve RWC by one box. **If RWC is 4-5**, Improve RWC by one box, but draw a random Opponent in Congress. **If RWC is 2-3**, Randomly select and remove one Friend from the Friends box and draw a new Opponent in Congress.
3	**Congressional Agenda.** Add a new bill, matching the highest Public Priority that isn't already in the Pending Bills area, to the "0" box, as Opponent's Legislation. If the bill is one of your administration's three priorities, +2 APs. If all Public Priority bills are already in the Pending bills area, move one Opponent's Bill left one box.
4	**Special Interests Mount Media Campaign against your bill.** -1 Public Approval. Move your leftmost bill in the Pending Bills area right by one box. Choose randomly if more than one. If none, -1 AP.
5	**Cabinet shaken by threats of Congressional Investigations**. Make an immediate d6 roll on the Cabinet Drama Table (D3). Move Bipartisan Cooperation Counter left one box on the Bipartisan Cooperation Track. -1 AP. Place a "Worsening" counter on Cabinet Effectiveness.
6	**Opposition Media Blitz Targets Administration.** -1 RWC. **if Public Approval is 60%+:** Blitz backfires. +1 Public Approval. **if Public Approval is 42-58%** -1 Public Approval. Draw a new Opponent in Congress. **if Public Approval is 30-40%**, -2 Public Approval; -1 AP; Draw one Opponent. **if Public Approval is <30%**, -2 Public Approval; -1 Media Relations; -2 APs; Draw one Opponent.
7	**Party Hardliners Gain Momentum in Partisan In-Fighting.** Move Bipartisan Co-op one box left. Place one Tensions counter on POTUS/Cab "Relations with Congress" focus. If it already has a Tensions counter, place the Tensions counter normally on the first (6 to 1) Priority without a Tensions counter. Roll a d6: **1-3: Affects Your Party.** Move your leftmost bill (if more than one, choose randomly) right by one box. If you have a Friend in Congress who is Moderate, remove them back to the draw cup (choose randomly if more than one). -1 Party Relations. **4-6**: **Affects Opposition**. Move the leftmost Opponent's Legislation (if more than one, choose randomly) right by one box. Randomly remove one Moderate Opponent in Congress to the draw cup.

Contd

8+	**Corruption!** Go to the Scandal Track on the Map and roll on the Random Scandal Determination to find the target of the investigation. Place the affected Scandal counter in the "Breaking Scandal" box. (If there is already a Scandal for the randomly-selected target, move that target's Scandal counter one right on the Scandal Track, instead of adding a new Scandal.) -1 Party Relations (-2 if POTUS is the Scandal Target). -1 RWC. -3 Public Approval (-5 if POTUS is the Scandal Target).

DRMs: (+3/-3 Net Max)

-1: If Bipartisan Co-operation is in the rightmost box

+1 If Bipartisan Co-operation is in either of the two leftmost boxes

-1: If RWC is currently 7 or greater

+2: If RWC is currently 3 or less

-1 if Public Approval >60%

+2 If Public Approval <30%

-1 if Friends outnumber Opponents in Congress

+1 If Opponents outnumber Friends in Congress

+2 If this is 2nd Roll of the step (due to Bipartisan Cooperation being in the leftmost box)

D7 GREATER SOCIETY INITIATIVES

A Greater Society Initiative (GSI) is treated like a bill to be introduced and passed through the Legislative process. However, to introduce a GSI, the Domestic Crisis Level must be at "0" and it can only ever be introduced during a Legislative Segment. When you introduce a Greater Society Initiative, place the GSI's counter on the "+1" space on the Bills Pending Track on the game board (even if your party controls both houses). You can only have one GSI pending in Congress at a time.

When you pass and sign a Greater Society Initiative, each level of implementation brings unique benefits to the President and to US Society, as detailed below:

GREATER SOCIETY INITIATIVE	LEVEL 1	LEVEL 2
National Security/ Defense	+1 to Any Strategic Capability; +2 Public Approval; Add 1 x Light Army and 1 x Marine to US Force Pool. **For a Landmark Bill:** +4 Legacy Pts; **For a Good Bill:** +3 Legacy Pts.	+1 to Any Strategic Capability; +1 Homeland Security; +3 Public Approval; Add 1 x Army Heavy and 1 x USAF to US Force Pool. **For a Landmark Bill:** +7 Legacy Pts; **For a Good Bill:** +5 Legacy Pts.

Health, Longevity, and Disease Eradication	Place "Economy Improving" counter on US SoE Track; +3 Public Approval; **For a Landmark Bill:** +4 Legacy Pts; **For a Good Bill:** +3 Legacy Pts.	+1 to US SoE Track; +4 Public Approval; +1 Presidential Prestige; **For a Landmark Bill:** +7 Legacy Pts; **For a Good Bill:** +5 Legacy Pts.
Science & Technological Innovation	+1 to Any Strategic Capability; +2 Public Approval; **For a Landmark Bill:** +4 Legacy Pts; **For a Good Bill:** +3 Legacy Pts.	+1 to Any Strategic Capability; +3 Public Approval; +1 UN Goodwill; +1 World Opinion; **For a Landmark Bill:** +7 Legacy Pts; **For a Good Bill:** +5 Legacy Pts.

D8 STATE OF THE UNION

At the start of every Turn other than Turn 1, you make your State of the Union Address. Roll on the State of the Union Chart below to determine what benefits or penalties result from your speech.

Choose the column that represents the sum of these four current ratings: **Public Approval Die Roll Modifier** (the one at the top left of the actual Public Approval %), **Relations with Congress, Media Relations**, and your current **Presidential Prestige**. Then roll a d10 and find the result of your speech in that column.

D9 "DOMESTIC CRISIS" CRISIS CHIT

Whenever you draw the "Domestic Crisis" Crisis chit from the cup, do the following:

- Place one Tensions counter on a POTUS/Cabinet Focus Priority (in 6 to 1 order)
- Roll a d10 and find the result on the Domestic Crisis Event Table.

DOMESTIC CRISIS EVENT TABLE

DR (d10)	Event	Action
1	Gun Violence	+1 Domestic Crisis Levels. -2 Public Approval. Move Gun Legislation to #1 Public Legislative Priority.
2	Social Unrest; Riots	+1 Domestic Crisis Levels. -2 Public Approval. -1 Media Relations. Then make a Public Approval Check: Fail= increase LDI by one box.
3	Health Crisis; Epidemic	+1 Domestic Crisis Levels. -3 Public Approval. Move Health Care Reform to #1 Public Priority.
4	Major Infrastructure Failure	+1 Domestic Crisis Levels. -2 Public Approval. Move Infrastructure Upgrades to #1 Public Priority.
5	Political Gridlock	-1 Relations with Congress. -2 Public Approval. -1 Party Relations. Move Bipartisan Marker one box left. Make a RWC Check: Fail= remove one random Friend from the Friends box and place back in the cup.
6	Growth of Domestic Terror Infrastructure and Planning	Place Lvl 1 Terror Group in CONUS. If there are already 3+ groups in US, increase lowest group by one level instead. Place a Tensions counter on the Homeland Security POTUS/Cabinet Focus Priority. If it already has a Tensions counter, place the Tensions counter normally on the first (6 to 1) Priority without a Tensions counter.
7	Wave of New Designer Drugs hits America. Fatalities Skyrocket.	+1 Domestic Crises. -2 Public Approval. Increase a Terror Group in both Central America and South America by one level (or place a new Lvl 1 group if none currently exist there).
8	Natural Disaster	Randomly draw and apply one Natural Disaster Card.
9	Speculative Bubble Bursts, Stock Market Plunges, Bank Failures!	Place "Worsening Economy" counter on US SoE Track. -3 Public Approval. -1 Party Relations. Make an SoE check. Fail= +1 to LDI. Make SoE checks for Eurozone, China, and Russia. For any that fail, place a "Worsening Economy" counter on the corresponding track.
10	Domestic Terror Event	Perform Domestic Terror Attack Procedure [D11].

DRMs:

None

D10 DOMESTIC FAILURES

Anytime you reach the "Roll for Domestic Failure" space on the Domestic Crises Track, do the following:

- Immediately increase the Lingering Domestic Issues (LDI) Track by one box.
- Roll a d10 on the Domestic Failure Chart, below, and apply effects immediately.
- Reset the Domestic Crisis counter back to the "1" box on the Domestic Crises Track.

DOMESTIC FAILURE CHART

DR (d10)	RESULT
1 or less:	Your "spin skills" and good track record – or maybe just luck –keeps this failure from blowing up in your face. No further effect.
2-3:	The US public is displeased, but willing to put this in the past and move on. -1 Public Approval.
4-5	US Media presents you unfavorably. -2 Public Approval. -1 Media Relations. Make a Cabinet Effectiveness Check (d10). If you fail, place a "Worsening" counter on the Cabinet Effectiveness Track.
6-7	Failure causes issues with Congress. -1 Public Approval. -1 Relations with Congress.
8-9:	Political opponents take to the airwaves and social media to decry your lack of leadership qualities. -2 Public Approval. -1 Relations with Congress. -1 Party Relations. Draw one new Congressional Opponent. Make a Cabinet Effectiveness Check (d10). If you fail, place a "Worsening" counter on the Cabinet Effectiveness Track.
10-11:	Your major failure hurts your image and stalls legislation. -3 Public Approval. -1 Party Relations. -1 Presidential Prestige. -1 Relations with Congress. Move Bipartisan Counter one box left. Place a Tensions counter on POTUS/Cabinet Focus (6 to 1).
12+:	Your failure has economic repercussions. Financial markets shaken! -3 Public Approval. -1 Party Relations. +1 (additional) Lingering Domestic Issues. Place Worsening Economy counter on US SoE Track. Place a Tensions counter on POTUS/Cabinet Focus (6 to 1). Make a Cabinet Effectiveness Check (d10). If you fail, place a "Worsening" counter on the Cabinet Effectiveness Track.

D11 DOMESTIC TERROR ATTACKS

Whenever the game instructs you to perform a "Domestic Terror Attack," or that result is rolled on the Domestic Crisis Event Table, do one of the following based on whether there is currently at least one Terror Group in CONUS. If there are not any Terror Groups, perform the actions listed under "If you PASS THE CHECK or there are no Terror Groups in CONUS" below. If there is at least one Terror Group in the US (including in any of the boxes of the Intel Track), then:

- Make a Homeland Security Check (D18), with a DRM of +1 if the highest Terror Group Level in CONUS is 3 or +2 if it's 4 (higher terror levels represent more sophisticated networks).

If you **PASS THE CHECK**, (or if there are no Terror Groups in CONUS)
No Domestic Terror Attack happens, but increase the Domestic Crisis Level by one box (high terror alert levels and attack warnings have the populace unsettled).

Increase one Terror Group in CONUS (in 3, 2, 1 order) by one level. If there are currently none, place a new lvl 1 Terror Group in CONUS.

Place two Tensions counters on POTUS/Cabinet Focus Priorities (in 6 to 1 order).

If you **FAIL THE CHECK**,
Increase the highest Terror Group in CONUS (in 3,2,1 order) by one level.

Roll twice on the DOMESTIC TERROR TABLE – first one die for location and then one die for Severity of the attack based on the level of the highest-level Terror Group in CONUS. Apply results.

Place two Tensions counters on POTUS/Cabinet Focus Priorities (in 6 to 1 order).

DOMESTIC TERROR TABLE

Roll d10 twice, first for Location, second for Severity of Attack

2nd Die Severity - Highest Level Terror Group in CONUS

Example: *The highest-level Terror Group in CONUS is a Lvl 2 Terror Group. Your first roll (for attack location) is a 7. That means the attack happens in Philadelphia. For the second roll, you use the "Lvl 2 Group Attack Severity Result" and roll again. This time you roll a 6. This results in a Moderate Damage attack in Philadelphia. The game results are -2 Public Approval and -1 Media Relations.*

D13 THE PAST IS PROLOGUE

DOMESTIC EVENTS

When you draw a Past is Prologue Domestic Crisis card, roll a d6 and immediately apply the results below.

Roll (d6)	WHAT TO DO
1	**Your Party Radicals make power play**. Check your Party Relations: • If Party Relations is 7+, your influence marginalizes the Radicals after a brief internal fight. Lose one AP (if you don't have any to lose, no further effect). • If Party Relations is 4-6, you may choose to spend two APs to keep the radicals at bay, with some minor damage to your Party Relations (-1). If you do not or cannot spend the APs, the Radicals gain some influence within your party, hurting both Bipartisan Cooperation (move one box left) and your current legislative agenda. Move your leftmost bill in Congress one box to the right. • If Party Relations is 2-3, you are unable to stem the Radical tide of influence within your party. Move Bipartisan Cooperation two boxes left, and -2 to your Party Relations. Move your two leftmost bills in Congress each two boxes right. Spend two APs (if you can't, randomly remove one Congressional Friend).
2	**Simmering Controversial Issues Cause Widespread Protests.** • If current LDI is 1 or less, +1 to Domestic Crises. • If current LDI is 2 or more, +1 to LDI, then +1 to Domestic Crises. • In either case, roll a d6. If the result is 6, no further effect. Otherwise, set aside the current Public Legislative Priority matching the die result. Slide other Priorities up to fill the void, draw for a new #5 Public Legislative Priority then place the set aside priority back into the cup.

Contd

3	**Crisis of Confidence in Congress!** • If your current Relations with Congress (RWC) Rating is 7+, -1 to RWC. • If your current Relations with Congress (RWC) Rating is 5 or 6, -1 to RWC and draw one new Congressional Opponent. • If your current Relations with Congress (RWC) Rating is 3 or 4, -1 to RWC and draw one new Congressional Opponent. -1 to Your Party Relations. Remove your leftmost bill in Congress. • If your current Relations with Congress (RWC) Rating is 2, randomly remove one Congressional Friend and remove your leftmost bill in Congress. Also, enough of your previous allies support your opponents to change the majority in one house! Adjust Party Control in Opponents favor (from Your Party Controls Both to Split Control or from Split Control to Opposing Party Controls Both). If it's already at Opposing Party Controls, draw a new Congressional Opponent.
4	**American Political and Social Polarization deepens.** • If the current Bipartisan Cooperation rating is in a "2" box, move the rating left by one box. • Otherwise, if the current Bipartisan Cooperation rating is in a "1" box, move it to the "0" box. -1 to Relations with Congress; -1 to Media Relations. • In either case, two new polarizing issues move to the forefront. Draw two new Public Legislative Priorities and place them in the #1 and #2 boxes. Remove the previous #4 and #5 Public Legislative Priorities and slide the previous 1-3 Priorities down two boxes each.
5	**Assassination Attempt!** Roll a d6 to determine target, with a DRM equal to the LDI DRM (top left of the current box on the LDI Track). 1: Sec State while abroad. Roll a d10 to determine random region. 2: Sec Def while abroad. Roll a d10 to determine random region. 3: VP while abroad. Roll a d10 to determine random region. 4: Chief of Staff in the US. 5: VP in the US. 6: POTUS in the US. If the attempt was abroad, +1 to Regional Crises in that region. If the attempt was in the US, +1 to Domestic Crises. Roll a d6 to determine result of attack: **1-2:** Quick security response limits casualties. The target is shaken but uninjured. +2 to Public Approval, +1 to RWC, +1 to Media Relations (sympathy response). **3-4:** Target is injured but alive and expected to fully recover. Place a Worsening Counter on Cabinet Effectiveness and place one Tensions counter on POTUS/Cab. Priorities; +3 to Public Approval, +1 to RWC, +1 to Media Relations (sympathy response). NOTE: If target was POTUS, double all of the above results. If attempt was abroad, if there is a Rogue State or Lvl 4 Terror Group in the region, they claim responsibility. If it is a Rogue State, you may immediately use Military Master Action #6 against them (or make a War Progress roll if you're already at War with them). If it is a Lvl 4 Terror Group, you may immediately Raid it as if it were in the Target Fixed box. If there is no such Rogue State or Terror Group, the source of the attack is unidentified and becomes a source of immediate regional friction and an indicator of growing anti-US sentiment there. Additional +1 to Regional Crises and place a "Trending Anti-US" counter on the Alignment Track. **5-6:** Target is killed. If target was not POTUS, immediately remove the target from the game. -1 full box to Cabinet Effectiveness and place 2 Tensions counters on POTUS/Cab. Priorities; +5 to Public Approval, +2 to RWC, +2 to Media Relations (sympathy response). During the next (blue) US Action segment, randomly draw three potential replacements and choose one. This does not cost an action.

	If the target was POTUS, sadly, this is game over for you, but it's not necessarily an auto-loss. Make the following track adjustments: +1 to Presidential Prestige, +8 to Public Approval, +1 to RWC, +1 to Media Relations (sympathy response). Then immediately perform the "Presidential Performance Evaluation and Possible Auto-Win or Auto Loss" step of the end-of-turn procedures. If there is no auto-win or auto loss, add +5 Legacy Points to your total score before you determine where you rank in the list of Great Presidents. Then start a new game (and next time, don't forget to duck!)
6	**Sub Prime Lending and Liquidity Crisis Takes US and World Banking System to the Brink of Disaster** * Decrease US SoE by three boxes. Decrease Europe SoE Track by two boxes. * Decrease Public Approval by five boxes, *-1 to Stability in ALL world regions. * Place a "Trending Anti-US" marker in all world regions. * Increase US LDI by one box. * Move Bipartisan Co-op Marker one right (the depth and immediacy of the crisis makes both parties a little more willing to negotiate) The game's "LDI" bill now becomes a bipartisan emergency bill that bails out key financial institutions and authorizes the Federal Reserve to use extraordinary measures to stabilize the money supply and the banking system. Regardless of where that bill is in the game (in pending legislation , in the Passed Landmark box, etc.), place it on the Pending Bills track as one of your Bills, one box to the left of where you would normally place it (based on Party control of Congress - place it in the 0 box if you control neither house). Then immediately make a d6 roll to determine whether the bill passes (simulating an emergency session of Congress to address the crisis). If it does not pass, it remains where it is on the Pending Legislation track and you can attempt to pass it normally during the next Legislative Segment. When the bill does pass, do not roll for Bill quality and perform the following instead of the effects listed in the D5 table: * Increase all US and Europe SOE tracks by one box. * -1 Domestic Crisis (if already at "0", then -1 LDI). * +2 Public Approval. * Place a "Trending Pro-US" marker in all world regions. If you pass the LDI bill one more time during the game (representing the two TARP bills that were passed historically), apply the above benefits again. Once the LDI bill has been passed twice, you've done all you can to address this crisis and the LDI bill reverts to its normal game usage.

D15 THE GOOD TIMES

The Good Times Process: Whenever the game instructs you to make a Good Times Die Roll, roll a d10 and apply the result from The Good Times Table, below.

The Good Times Table

DR (d10)	RESULT
1	**Host the San Francisco Giants** (ok, if you must, pick your favorite team. ☺), World Series Champs yet again! Proclaim your loyalty to the team, pose for pictures, and exchange signed memorabilia. Organize a brief pick-up softball game on the south lawn and pitch to Buster Posey (or your favorite player). **+2 Public Approval; +1 Media Relations. If you don't already have the "Likeable" POTUS Attribute, add it now unless you already have four Attributes.**
2	**Invite Key Allies for a Weekend at Camp David**. Host the leaders of the United Kingdom, Canada, Australia, and New Zealand and their families in rustic Camp David. Play tennis and ride horses together on the property. Watch John Wayne in "The Longest Day" together. Remind each other of the great history and traditions of mutual support between our nations that enabled survival and victory through times of great adversity. Talk openly about the challenges we face today, and ask for their perspectives on how we might work together to surmount them. Actively listen to them; listen more than you talk. **Increase one Ally relationship of your choice (UK, Canada, Australia) by one level. Place a "Trending Pro-US" counter in both the Eurozone and Asia/Pacific. If you don't already have the "An Ally's Best Friend" POTUS Attribute, add it now unless you already have four Attributes.**
3	**Accept an Invitation for an Interview from the team at 60 Minutes**. You agree to bring the 60 Minutes crew into some more informal White House settings for the interview segments. From jogging with the correspondents on your morning run, to cooking Saturday breakfast for your family in the White House kitchen as the White House Chef bemusedly acts as your assistant, you show America a more relaxed, casual, "everyday guy" side of their President. When asked about your heroes, you laud your parents, and thank your teachers and everyone who ever took the time to help you learn or set you straight. You readily admit that you married above yourself, and that your life with your wife has made you a better person. You point out that "no one is a self-made man." Your relaxed manner, humility, and graciousness begin to "win over" both the American people and the 60 Minutes Team. **+3 to Public Approval; +1 to Media Relations. If you don't already have the "Media Savvy" POTUS Attribute, add it now unless you already have four Attributes.**
4	**Take Key Cabinet Members on a Team-Building Retreat at Eagle Landing**. In a gorgeous setting with stunningly beautiful views of the Blue Ridge Mountains, join with your advisors for a day of team-building outdoor exercises, under the tutelage of professional team-builders. Practice trust exercises, team problem solving challenges, and work on improving communications skills in an environment far removed from the pressure cooker of the White House. End the day with a gourmet meal. Speak briefly, reinforce the day's fun and lessons learned, and thank them all sincerely for their service to the country. **Improve Cabinet Effectiveness by one box. If you don't already have the "Team Builder" POTUS attribute, add it now unless you already have four Attributes.**
5	**Vacation with Your Family in Jackson, Wyoming**. Spend a week in the grandeur of the Grand Tetons. Go White Water Rafting, Spend a day touring Yellowstone by helicopter, with stunning aerial views of cascading waterfalls, pristine mountain lakes, and large herds of American bison. Land at Old Faithful and watch the show. Enjoy Cookouts, hiking, and sightseeing with your family. Watch hilarious Western Comedy with delighted tourists at the Jackson Hole Playhouse. Relax. Refresh. Re-energize. Restore. When the family vacation ends, you're reinvigorated and ready to go back to work. **+2 APs, +1 Public Approval.**
6	**Make a Surprise Visit to Deployed Troops**. Speak to the troops and thank them for their patriotism and sacrifice. Afterwards, shake every hand and speak to each soldier. Look them in the eye as you tell them how much you and the nation appreciate their service. Share a meal with the troops, then meet with their leaders to listen to their situation briefings. Ask informed questions and listen to their ideas, concerns, and suggestions. Remind them that they are the finest that America has to offer and that they have your full and unwavering support. **+1 Military Action in the next Activation Segment that allows a Military Action (place a +1 AP marker on that Segment as a reminder). +1 Public Approval.**
7	**Host UN Leaders at a White House Dinner and Concert**. The White House Chef prepares an amazing gourmet meal, featuring an entrée of Columbia River Poached Salmon. Then an A-list of current pop and country stars rock the house in a 2-hour concert. Beyoncé closes the show with soaring vocals and an inspiring performance of her newest song and music video, "All of Us", that shows stark images of worldwide poverty, war, and oppression, and specifically calls out political leaders to do more to ease suffering in this world. In the awestruck audience, tears flow freely, responsibilities are recognized, and promises are made. **Gain 1 UN Goodwill counter. Make two immediate UN Humanitarian Aid rolls (see WD3, page 4 WCB) for two regions of your choice. +1 Public Approval.**
8	**Host a Summit with Major US Multi-National CEOs/CFOs, the Fed Chairman, and Key Executive and Legislative Budget Officials**. Hammer out an agreement that allows US Corporations to move overseas cash home at lower-than-normal tax rates. It's an "everyone has their say, no one has their way" discussion that builds understanding and trust between business and government. The new rates give neither side everything they wanted, but all are satisfied that they pave the way for renewed domestic use of business capital. **Place an "Economy Improving" counter on the US SoE Track. +1 RWC. +1 Public Approval.**

9	**Hit the Links**. Take an afternoon "off" at a local country club. Invite a leader from the opposition party to join you. Play for $1 per hole, and let him/her win, but just barely. Pay the $2 you owe promptly. Swap stories about your kids over hot dogs in the clubhouse. Agree that mosquitos suck. **Move Bipartisan Co-op one box right and +1 to your Relations with Congress.**
10	**Visit a local school**. Read stories to first graders. Playfully talk back to their teacher, then serve your timeout standing in a corner, to a gleeful audience of students. Play Foursquare on the playground. Compete valiantly but lose at Dodgeball. Finish your visit with a brief meeting with the school's teachers. Thank them for their service, their patience, and their commitment. **+1 Public Approval. +1 Media Relations. Add a new Friend in Congress (representing a new Friend from this school's congressional district).**

D17 MIDTERM ELECTIONS/RE-ELECTION

MIDTERM ELECTIONS

At the end of Turn 2, the country holds Midterm Elections which determines the new makeup of Congress for the next two years of your term.

- Roll a d10 on The Election Table (*see below and D17, page 19 DCB*) to determine the results.
- **After the Midterm Elections, you MAY perform Presidential Master Action #7 (dismiss/replace a Cabinet Member) up to two times.**
- Finally, return to **Beginning of Each Turn Sequence** to begin Turn 3 and continue building your legacy! Good luck!

RE-ELECTION

After 4 Turns, you MAY be nominated for re-election by your Party. The re-election results will impact your final Legacy Point score:

- First, determine if you are nominated for re-election. If your Party Relations Track is <4, your Party deems you unelectable. You are not nominated for another term and thus cannot be re-elected. **If playing the Sandbox Scenario,** proceed to Legacy Point Total.
- If your Party Relations Track is 4 or 5, you are nominated but without strong Party support. Roll on The Election Table (*see below and D17, page 19 DCB*) but with a +1 DRM.
- If your Party Relations Track is 6 or higher, roll a

d10 on The Election Table (*see below and D17, page 19 DCB*) to see if you are re-elected.

- **In the Sandbox Scenario,** if you lose re-election, the game ends. Proceed to Legacy Point Total.
- **IN THE 2001, 2009, 2017, AND 2020 HISTORICAL SCENARIOS,** re-election for a second term is a victory condition. If you lose re-election in those scenarios, it is an auto-loss.

-1 If you have the "Likeable" Presidential Attribute

DRMs: (Re-election)
+1 if Party Relations is 4 or 5
-1 If you have the "Likeable" Presidential Attribute

Results

- **No Change:** Keep existing Party Control in Congress Counter. No change to Legacy Points
- **Your Favor:** If you previously were in control in both houses, same as No Change. Otherwise, change the control by one level in your favor (so "split control" becomes "you control both houses" and "Opponents control both houses" becomes "split control") Draw one new Friend in Congress. **+3 Legacy Points, +3 Public Approval**.
- **Their Favor:** If Opponents were previously in control of both houses, same as No Change. Otherwise, change the control by one level in your opponents' favor (so "split control" becomes "opponents control both houses" and "You control both houses" becomes "split control"). Draw one new Opponent in Congress. **-5 Legacy Points; -5 Public Approval.**
- * = **Midterm Rout!** This results in Your Party controlling both Houses if it was a "Your Favor*" result and Opponents' Party controlling both houses if it was a "Their Favor*" result.
- **[Re-election]:** If rolling for re-election, you win a second term. If playing the Sandbox Scenario, either proceed to Legacy Point Total or see "A Second Term" in the Scenario Booklet.
- **[Defeat]:** If rolling for re-election, you fail to win a second term and are a one-term President. If playing the Sandbox Scenario, proceed to Legacy Point Total.

D18 TRACK CHECKS

During the game, you will often be instructed to make a check (Alignment Check, State of Economy Check, Presidential Prestige Check, etc.) against one of the tracks in the game. The following is a list of the Tracks where you may be asked to make a Track Check:

Domestic Tracks
- Public Approval
- Presidential Prestige
- Relations with Congress
- Cabinet Effectiveness
- Media Relations
- Homeland Security
- State of the Economy

World Tracks
- Regional Alignment*
- Regional Stability
- State of the Economy for the Eurozone, China, or Russia

When you need to make a Track Check, follow this procedure:

- Find the current rating (where the counter is) on that track
- Roll d10:

PASS: If the result is **equal to or less than** the current rating on the Track you are testing, you have passed the check.

FAIL: If the result is **greater than** the current rating on the Track you are testing, you have failed the check.

Example: A card tells you to make a Regional Alignment check in the Asia/Pacific region. You note that the "Regional Alignment" counter in the Asia/Pacific region is currently in the "6" box of the Regional Alignment and Stability Track. You roll a 10-sided die and get a "7" result. You have failed the check.

* Russian or Chinese Influence in a Region does NOT affect a straight Regional Alignment Check in that Region, as described above, but it DOES affect Diplomatic Master Action #2 if you use it to attempt to improve Regional Alignment in that Region (see Diplomatic Master Action Chart). Also, improving Regional Alignment through providing Economic Assistance is NOT affected by Russian or Chinese Influence in a Region.
