MILITARY MASTER ACTIONS

MM

(Only POTUS and the Secretary of Defense can use these actions during the designated segments)

Subtract 1 from these rolls if playing with the Special New Player DRM rule.

These rolls can be re-rolled once (only) by spending an AP.

NOTE

ACTIONS: During any blue "Actions" Segment in the Turn Sequence, you may spend 2 APs to take ONE additional action of ANY type in addition to what the Action Segment allows.

1 REQUEST RAPID CAPABILITIES

WHY: Improve your strategic position and capabilities in the world vis-à-vis Russia and China.

WHEN: During any Activation Segment in which Military Actions may be taken, **if there are <2 Rapid Capabilities counters already on the US Strategic Capabilities Track.**

COST: 1 Action and 1 AP (unless your Secretary of Defense's Military Rating is 2, in which case no AP required).

PROCEDURE: Place a Rapid Capabilities (DARPA) counter on one Strategic Capabilities Track. You may not place it on a Track that already has a Rapid Capabilities counter on it.

You will resolve Rapid Capabilities Attempts during the next Special Activation Phase, the "Improve Strategic Capabilities" Segment.

2 DIRECT INTEL GATHERING OPS AGAINST TWO DIFFERENT TERROR GROUPS

WHY: Gain intel on Terror Groups in World Regions to enable operations that find and target them.

WHEN: During any Activation Segment in which Military Actions may be taken.

COST: 1 Action

PROCEDURE: Select two Terror Groups (not in CONUS).

For each Terror Group, roll a d10 (10): (-1) (↻)

PROCEDURE: Choose between the following two actions:

A) **Reposition Carriers and Move USMC forces.** Select a total of up to two Carriers and/or USMC units. Move Carriers to any Carrier Deployment Zone. Move USMC units either into any Carrier Deployment Zone, or from a Carrier Deployment Zone to a connected neighboring region. USMC units ending their move in a Carrier Deployment Zone are placed on their "2" strength side, otherwise they are placed on their "3" strength side.

B) **Move Non-Carrier Forces.** Select 1 US air or ground unit or a total of 2 Intel/Advisors units and/or Special Ops units. You may not move an "In Transit" Heavy Army that was already moved this segment (you may move it in a future segment). Selected units may move between CONUS or "US Forces" box in any region. If an "In Transit" Heavy Army is selected to be moved, flip it to its "combat" side without moving it, otherwise flip it to its "In Transit" side after it is moved. **The US Army Hvy in Asia Pacific can never be moved.**
